[ROTATE NEXT SIX QUESTIONS]

__Which of the following statements comes closer to your point of view:

[ROTATE STATEMENTS]

__**Statement A:** We should give the Food and Drug Administration the authority to regulate tobacco products because tobacco is exempt from the basic health protections that the FDA applies to other products. Currently, the FDA can regulate a box of macaroni and cheese, but not a pack of cigarettes. This bill will provide additional resources for the scientists and health professionals at the FDA to effectively regulate tobacco products without taking away from its other responsibilities.

OR

__**Statement B:** We should not give the Food and Drug Administration the authority to regulate tobacco products because the FDA already has its hands full trying to regulate prescription drugs and other products. Regulating tobacco would take time and resources away from the FDA's main job of approving potentially life saving medications.

[IF A/B] Do you feel that way strongly or not so strongly?

Statement A, strongly.....	52	69
Statement A, not so strongly	17	
Statement B, not so strongly	9	
Statement B, strongly	18	27
DK [VOL].....	4	

__Which of the following statements comes closer to your point of view:

[ROTATE STATEMENTS]

__**Statement A:** We should give the Food and Drug Administration the authority to regulate tobacco products and their marketing. The tobacco companies spend more than \$13 billion dollars every year marketing their deadly products, and much of that marketing directly impacts kids. The marketing restrictions included in the bill will help prevent tobacco companies from addicting our children.

OR

__**Statement B:** We should not give the Food and Drug Administration the authority to regulate tobacco products because the marketing restrictions included in the proposed bill would be an unconstitutional limitation on free speech and restrict the right of tobacco companies to market their products to adults who choose to smoke.

[IF A/B] Do you feel that way strongly or not so strongly?

Statement A, strongly.....	51	68
Statement A, not so strongly	17	
Statement B, not so strongly	9	
Statement B, strongly	19	28
DK [VOL].....	4	

__ Which of the following statements comes closer to your point of view:

[ROTATE STATEMENTS]

__ **Statement A:** We should give the Food and Drug Administration the authority to regulate tobacco products so it has the power to stop tobacco companies from marketing to children, reduce smoking and save lives. The positive impact the proposal will have on public health outweighs any possible impact on convenience stores.

OR

__ **Statement B:** We should not give the Food and Drug Administration the authority to regulate tobacco products because the new restrictions would place an unfair burden on convenience stores by limiting tobacco advertising in stores, requiring them to check ID's and penalizing stores if clerks sell to minors. These restrictions could cause thousands of small businesses like convenience stores to go out of business, costing thousands of jobs.

[IF A/B] Do you feel that way strongly or not so strongly?

Statement A, strongly.....	56	72
Statement A, not so strongly.....	16	
Statement B, not so strongly.....	12	
Statement B, strongly.....	12	24
DK [VOL].....	3	

__ Which of the following statements comes closer to your point of view:

[ROTATE STATEMENTS]

__ We should give the Food and Drug Administration the authority to regulate tobacco products because the agency could stop tobacco companies from deceiving people about the health dangers of their product, end efforts to manipulate nicotine levels in cigarettes to hook more smokers, and force tobacco companies to implement ways to make cigarettes less dangerous to people's health.

OR

__ We should not give the Food and Drug Administration the authority to regulate tobacco products because FDA regulation of tobacco could make it seem like cigarettes have a government "seal of approval" that would minimize the danger of cigarettes and cause more people to start smoking or not quit.

[IF A/B] Do you feel that way strongly or not so strongly?

Statement A, strongly.....	57	70
Statement A, not so strongly.....	13	
Statement B, not so strongly.....	11	
Statement B, strongly.....	15	26
DK [VOL].....	4	

__ Which of the following statements comes closer to your point of view:

[ROTATE STATEMENTS]

__ **Statement A:** We should give the Food and Drug Administration the authority to regulate tobacco products because it will help stop our kids from smoking and help current smokers quit, which will save billions of dollars by reducing health care costs from tobacco related illnesses. The additional funds needed for the FDA would come from a fee on the tobacco companies amounting to less than two cents per pack of cigarettes sold.

OR

__ **Statement B:** We should not give the Food and Drug Administration the authority to regulate tobacco products because this law would waste taxpayer dollars by creating a huge new government bureaucracy and cost more than \$300 million dollars to implement.

[IF A/B] Do you feel that way strongly or not so strongly?

Statement A, strongly.....	54	69
Statement A, not so strongly.....	16	
Statement B, not so strongly.....	7	
Statement B, strongly.....	19	26

[ROTATE STATEMENTS]

__ **Statement A:** We should give the Food and Drug Administration the authority to regulate tobacco products so it has the power to stop tobacco companies from marketing to children, reduce smoking and save lives. The positive impact the proposal will have on public health outweighs any possible impact on tobacco growers.

OR

__ **Statement B:** We should not give the Food and Drug Administration the authority to regulate tobacco products because the new restrictions could hurt tobacco growers by reducing demand for their crops and placing burdensome requirements on tobacco growing.
